Hey Schatzi,
Happy New Year! I didn't get that email, but David forwarded it to me earlier today. I liked the additions and it confirms OW is okay with the proposal for sure. I just hope we can get complete agreement soon so we can get it to DOE and TDEC. I expect TDEC to be in full agreement but I expect some complaints on the specific list of CoCs from DOE. If that is there only complaint, we can deal with it though.
Thanks,
Glenn

David,
I just wanted to send a quick note to see if there is an update and/or projection of when there might be a final answer to our proposed path forward for Oak Ridge. The day after tomorrow (Jan 6th) was the deadline for DOE to revise the draft ROD but they had to submit an extension request since this issue is still outstanding. They continue to reach out to Region 4 each day to see if we have a response to their original proposal from back in October. I continue to tell them we are close to having a response and my next meeting is scheduled with DOE and TDEC on Thursday afternoon. I'd really like to give them a more definite response by then if at all possible.
Thanks in advance for your help,
Glenn

Carol -- checking in to see we have any feedback from John and Leif.

Karin – checking to see if there’s any feedback from OGC.

All – I’m drafting an email for Barry and Carlton to send to the other Principals asking for final concurrences. I’ll share with everyone this afternoon.

Dave

Glenn –

Thank you (and everyone on your team) for all the hard work on this, it looks like you addressed all comments and it was good to talk this through with you to you the other day. Greg and I will get this to Carlton and Barry for their concurrence and distribution to the other Principals. Wrapping this up before the first week in January would be very important and allow us to get back to DOE in a timely manner. Happy Holidays!!!!
Dave

I talked to Brigid and Karin and think this version addresses all comments. I'm attaching a version with responses to comments and edits shown and a clean version where all edits are accepted. David and Greg, please let me know if you need anything else before you share with the Principals.

Thanks and Happy New Year!

Glenn

Importance: High

Hi Carol! I think the path forward makes sense and FFRRO agrees. I've reviewed and provided a few comments and suggested clarifying edits for consideration. **I'd ask OSRTI and FFEO leadership to chime in ASAP, ideally by COB Tuesday in case we need to discuss any matters prior to transmittal.** I understand Carlton is back on Thursday so we would like to transmit it no later than 9a Thursday. Thanks!!

Hi all, I don't know everyone's holiday schedule. Just want to bring this to the top of your email list as we all know it is

critically important! Please let us know your thoughts as we will move this forward quickly if it looks feasible.

Cathy and I had a meeting with DOE Oak Ridge and TDEC yesterday to try to work out a resolution to the outstanding issues we have been discussing the last few months. Attached is a final draft of the new proposed path forward to resolve the issues. David and Karin have reached out to OW and they agreed that this will resolve any issues OW had with the calculation of the instream water quality values for Bear Creek and make the values consistent with the CWA. We are hopeful that this also will satisfy any OGC concerns. Carol asked me to send this to OSRTI for her. Please take a look and let David Hockey and/or me know if you have any edits or questions. FFRRO would like to send this out to the Principals next week if possible so that we can get this to DOE and TDEC ASAP. I'm out of the office tomorrow, but please call or text me on my cell if you have any questions. I will be back in the office on Monday.

Thanks,

Glenn
